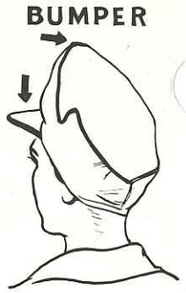
STASAFE HAIRGARDS PROVIDE INDUSTRIAL HEAD PROTECTION FOR WOMEN

RETURN TO DESIGN DIV.

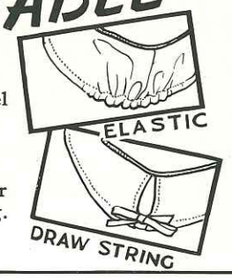
RETURN TO DESIGN DIV.

SAFE!



When worn properly ALL the hair is enclosed. Visor and semi-stiff top serve as warning bumpers if wearer leans too close to moving machinery.

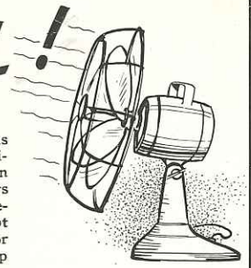
ADJUSTABLE



Adjustment of any model Hairgard is provided by:
1. Elastic expansion or,
2. Short Drawstrings

Be sure and specify your preference when ordering.

COOL!



Sturdy StaSafe Hairgards are as cool as possible without sacrificing safety. Added ventilation features are mesh tops in numbers 14, 15 and 17. It must be remembered that the mesh does not protect against dust, oil mist or sparks as well as the fabric top models.

LIGHTWEIGHT

StaSafe Hairgards weigh less than 3 ounces

WASHABLE

All material used in Hairgards is sanforized, pre-shrunk and color fast. The colors used in imprinting emblems or slogans are wash-fast and brilliant. Hairgards may be dry cleaned or laundered.

No. 14 Ivory A very popular and attractive model. The visor serves as a warning bumper if the wearer leans too close to machinery. No. 14 is available in any combination of colors shown below and is adjustable by means of draw strings in the back or elastic if you prefer. State type of adjustment wanted when you order. Mesh top if desired.

No. 14 Blue This is another color combination of the same model as shown on the left. The navy blue drill is pre-shrunk and does not require as frequent laundering as the ivory material. Mesh top if desired. Any color trim.

No. 15 For direct overhead vision where extra light is desirable order the transparent Acetate visor model. The visor is non-flamable. While this model may be washed it requires a little more careful handling than the No. 14 with the solid visor. Adjustable by either draw strings or elastic band. Mesh top if desired.

No. 17 Blue Same style and features as No. 17 ivory shown at the left but made of navy blue material to reduce necessity of frequent laundering. Mesh top if desired. Can be fireproofed.

No. 17 Ivory Roomy, safe and sewed in such a manner that it is more rigid than ordinary shop caps. The top, as well as the visor tells the wearer when to duck. Ideal for protection against oil mists and many types of dusts. Adjustable by elastic. This model is available with a mesh top for additional ventilation if necessary. Can be fireproofed.

No. 14 and No. 15—All the hair is enclosed. Solid fabric top style shown.

No. 14 and No. 15—Mesh top which is available on request.

Elastic adjustment feature available in models 14, 15 and 17. Makes a snug, neat closure and trim fitting Hairgard.

Drawstring adjustment feature available on models 14, 15 and 17. Easily adjusted draw strings are short and may be tucked in under the Hairgard after adjustment has been made.

Back view of No. 17 showing fabric top with elastic adjustment feature.

Back view of No. 17 showing mesh top which is available on request.

COLORFUL!

COLORS: A wide selection of color combinations is possible in spite of necessary war time material restrictions. On Models 14 and 15 you can have a choice of Ivory or Navy Blue drill with Red, Blue, Green or White trim. There is no limitation on colors used for imprinting. On Model 17 you may have a contrasting bow if desired, with either Navy Blue or Ivory drill. On Model 11 you may have choice of Navy Blue or Red trim on Ivory mesh.

Please send a sample or a rough pencil sketch of the trade mark or emblem you wish imprinted. Also state clearly the color you wish used or, better still, give us a sample which we can follow.

PATENT OFFICE AUG 4 1943 DESIGN DIVISION

HELPFUL ORDERING INFORMATION

Be sure to indicate on your order the style you desire, the color of the fabric, the color of the trim around the visor and the crown, and the color desired on the imprinting. If the color of the Hairgard is unimportant or is not indicated on your order we will assume the right to furnish you with the colors most available and in our best judgment a pleasing combination.

TERMS—1%-10, Net 30. On shipments in Illinois, 2% will be added for Ill. Occupational Expense. All prices are F.O.B. shipping point.

PRIORITY RATINGS

Priority ratings are important. Each Hairgard order must carry a priority rating of some sort. The materials involved are regulated by the War Production Board and while a priority rating of A-10 is sufficiently high as far as material is concerned, a higher rating is necessary to expedite delivery. It will behoove you to attach as high a priority rating as possible to assure preference over prior orders which may be in the process of manufacturing at the time your order is received .
